

CDC-HKEAA Committee on Chemistry (2013-2015)
Gist of the 3rd Meeting

Date of meeting: 28-3-2014

Salient points of the discussion:

1. The progress and timeline for the medium-term review of school-based assessment (SBA) were reported.
2. For the discussion on the medium-term review for the Chemistry and Combined Science (Chemistry part) curricula and assessment, issues regarding insufficient teaching time, major challenges in students' learning and the use of practical activities for enhancing students' understanding were addressed.
3. A working group under the CDC-HKEAA Committee on Chemistry was to be formed to deliberate the major concerns for the medium-term review and work on the solutions to problems such as insufficient lesson time and teaching of challenging topics.
