

CDC-HKEAA Committee on Chemistry (2017-2019)
Gist of the 2nd Meeting

Date of meeting: 24-1-2018

Salient points of the discussion:

1. The statistical results and written comments from the questionnaire survey on the proposed changes to the Chemistry and Combined Science (Chemistry Part) curricula were discussed. Members had no objection for submitting the proposed changes to the curricula to CDC Committee on Science Education and CDC for endorsement.
2. The learning and teaching strategies for promoting the learning of information skills in Chemistry were discussed.
