

**The CDC-HKEAA Committee on
Health Management and Social Care (2015-2017)**

Second Meeting

Gist of the Meeting

Date of meeting: 27 March 2017

Key issues raised/discussed

- Learners' diversity had been addressed in the NAS Medium-term Review by streamlining of SBA from 4 tasks to 1 task only (Field Learning Task). Members raised no further comment on the SBA arrangement
- List of topics that could be better learnt and assessed through students' performance and their reflection in Field Learning Task was provided and discussed. Students could have deeper understanding of the concepts related to these highlighted topics through experiential learning so as to relieve their workload in rote learning, especially for the less able students. Members agreed with the list of topics to be provided for teachers' reference
