

**Example: An Arts Programme that Builds on Existing Strengths**

School Q has a tradition of offering General Music to SS students. To implement Aesthetic Development in OLE, the school broadens the students' learning by providing all SS students with a double period lesson of Music or Visual Arts per cycle. Various arts groups and artists are invited to conduct many arts activities such as instrumental master classes, live performances in dance and talks on film appreciation. The school also makes arrangements for students to visit exhibitions and stretches their talents through participation in external competitions related to the arts.
