

Gist of the Third Meeting of the
CDC Committee on Physical Education (2007-2009)
held on 30 March 2009

1. Members received information and gave their views on the following topics:
 - Recent development of the New Senior Secondary Physical Education Curriculum ó Public assessment
 - The draft strand-specific curriculum contents (õmotor and sports skillsö, õhealth and fitnessö, õsports-related values and attitudesö, õknowledge and practice of safetyö, õknowledge of movementö and õaesthetic sensitivityö) as at 30 March 2009
2. Members agreed that some core physical activities should be identified for enhancing the interface between the primary and secondary PE curriculums. The PE Section was tasked to form a working group comprising primary and secondary school teachers and make recommendations accordingly.
