

Gist of the Fourth Meeting of the
CDC Committee on Physical Education (2011-2013)
held on 4 July 2013

1. Members noted that the EDB offered different types of professional supports to schools, including professional development programmes, learning communities, on-site support, student programmes and learning and teaching resources.
2. Members were briefed the updated information on PE Elective:
 - change of public examination weighting between the theoretical component and practical component from 70:30 to 60:40
 - the replacement of the School-based Assessment with the practical assessment in the public examination
3. Members were informed the inclusion of the new subject code “312” for physical development / experience in the 2013/14 school year
