

Gist of the Third Meeting of the
CDC Committee on Physical Education (2011-2013)
held on 29 November 2012

1. For the Review of New Senior Secondary PE Curriculum and Assessment, members agreed that the following four items were crucial and should be included in the questionnaire for consultation:
 - 1.1 The Curriculum Framework would remain unchanged;
 - 1.2 The practical examination would be conducted in lieu of the School-based Assessment;
 - 1.3 The examination weighting between the theoretical component and the practical component in the HKDSE PE examination would be changed; and
 - 1.4 The earliest year of implementation preferred for the change in 1.3 would be revealed.
2. Members were updated on the progress of the Heart-Safe School Project.
