

**Gist of the Second Meeting of
the CDC Committee on Physical Education (PE)(2013-2015)
held on 13 June 2014**

1. Members were briefed and they discussed on the following topics:
 - the update of the Basic Education Curriculum Guide; and
 - the update of the PE Key Learning Area Curriculum Guide.
2. Members were briefed the progress of the Medium-term Review of the Senior Secondary PE Curriculum and Assessment, particularly on the two recommendations. Views of other stakeholders would be sought on the recommendations in due course:
 - Change of 100m hurdles to 110m hurdles for boys in practical examination; and
 - Introduce a physical activity review mechanism in the practical examination.
3. Different types of professional supports to schools, including professional development programmes, learning communities, on-site support, student programmes and learning and teaching resources were presented to members.
