

CDC News (December 2023)

The 1st meeting of CDC Standing Committee on STEAM Education (2023-2025) was held on 20 October 2023 (Friday). Salient points of the discussion were summarised as follows:

- The work progress of various key support measures for further strengthening the promotion of STEAM education in schools was reported and discussed, including -
 - the new curriculum initiatives relating to STEAM education, in particular the development of the Primary Science (P1-6) subject, the release of newly developed STEAM learning modules in Junior Secondary Science, and the launch of support programmes for Mathematics curriculum;
 - the provision of professional development programmes on Innovation & Technology and holistic planning for the implementation of STEAM education in schools for the STEAM co-ordinators/teachers;
 - the collaboration with professional bodies/organisations in arranging student activities; and
 - the grooming of gifted students with talents in STEAM, etc.
- The progress of development of the STEAM Education Handbook and the Information Technology Learning Targets were reported.
