

PREAMBLE

This glossary provides Chinese translations of those English terms commonly used in the teaching of Mathematics at secondary and sixth form levels in secondary schools. It is intended to facilitate the use of Chinese as the medium of instruction.

This glossary is a revision and amalgamation of, and replaces, the ones issued to schools in 1988 and 1989 for use in Secondary 1 to 5 and Secondary 6 to 7 respectively. It reflects the needs of both teachers and students, and removes unnecessary duplication of terms.

Comments on the glossary are welcome and should be addressed to the Principal Curriculum Planning Officer (Secondary and Prevocational) or the Principal Curriculum Planning Officer (Sixth Form), Curriculum Development Institute, Education Department, 13/F, Wu Chung House, 213 Queen's Road East, Wan Chai, Hong Kong.
